**DISCUSSION/ACTION: STUDENT OPPORTUNITIES DISCUSSION**

Dr. Riggle stated that Dr. Shellard and Dr. Tarjan collected additional statistics for the differential listed in activities from various sponsors. The schools do not collect this data each year and are dependent on the records maintained by the coaches and sponsors of the activity.
Dr. Wegley reviewed strategies for maintaining equity for 3100 students at GBS which assumes no changes in district boundaries.

Dr. Wegley reviewed the areas of concern for student opportunities and discussed the strategies the administration is suggesting to make sure that we are serving both the students and the faculty.

Dr. Wegley responded to a board member’s questions:
- GBS has capacity for classes.
- His concern is for specialty classes.
- He explained how the specialty courses may affect students’ class choices.
- He clarified the suggested strategies presented.

In response to a board member’s question Dr. Riggle stated that the presentation listed areas of concern that the administration anticipates with increased capacity.

Dr. Williamson stated that as GBS moves to the block schedule the administration will need to analyze the facilities. The number one concern the administration has for the core classes are science classrooms.

Dr. Wegley responded to a board member’s question that it is premature to state what the administration would do as enrollment grows. Student trends are constantly being monitored and reviewed with regard to academics and facility usage.

Dr. Wegley responded to a Board member’s question by reviewing the process the administration used in reviewing facilities usage and students’ class choices when moving to the block schedule.

**DISCUSSION/ACTION: STUDENT ENROLLMENT PHILOSOPHICAL DISCUSSION**

Dr. Riggle reviewed the key philosophical questions to be discussed:

1. Communities of Interest
2. Balanced Building Capacities
3. Equal Enrollment

Dr. Riggle answered clarifying questions from the Board regarding the philosophical questions. He stated that there are no absolutes.

Board members discussed their views on the philosophical questions.

Dr. Riggle responded to a board member’s question that capacity is a variable term based on a number of assumptions. He continued to
explain how the capacity number changes based on a number of variables.

Dr. Riggle responded to a board member’s question regarding how he allocates FTE between both schools. He stated that past practice included the students’ experience being equitable.

Board consensus was that maintaining equal enrollment between the two schools is not part of this Board’s philosophy.

The Board discussed the topic of grandfathering students into a specific high school.

A board member stated that some issues need to be resolved before the end of the school year.

Dr. Riggle responded to a board member’s question stating that it is very difficult for the administration to give the Board specific information regarding what they should absolutely not consider. He stated that it is important to note what the Board likes in general; for example, grandfathering because we like to keep families together. Dr. Riggle stated that he would like to offer comfort to the community, but does not want more speculation from the community. The Board is still looking at a lot of data and still has a lot of discussion regarding many topics. Dr. Riggle stated that he wants to make sure that we send the right message to the community. Dr. Riggle stated that we would like to be able to quantify more precisely, but we are not at that point yet. He stated that he can put some general thoughts in writing for the board. For example:

- Considering communities of interest, but not an absolute position.
- Statements regarding grandfathering.
- Conditions we would like to meet if possible.
- Questions the administration is thinking about that the Board may not be considering.

Dr. Riggle stated that we can review the list on May 19 and again at the June 9 board meeting and hopefully then there will be some answers for the community.

RECOGNITION OF COMMUNITY VISITORS FOR COMMENTS LIMITED TO TOPICS ON THIS AGENDA

Pete Masloski stated:

- He has a deep connection to Glenview and does not want the boundaries changed.
- GBS is Glenview High.
• There is a sense of pride in the Glenview community which extends to GBS.
• The importance of keeping communities of interest.

**DISCUSSION/ACTION: ACADEMIC PROGRAM REVIEW – GBE**

Dr. Williamson reminded the Board that this presentation is an overview of GBE and is not meant to be a program evaluation.

Dr. Santa, the GBE principal, provided a brief history of GBE. He reviewed the mission of the evening school as well as challenges that the students face. Dr. Santa explained the school structure including the class schedule, curriculum and extracurricular opportunities. He reviewed survey results regarding the graduates’ impressions of GBE. Dr. Santa reviewed survey results relative to where GBE graduates are today.

Dr. Santa responded to a board member’s question by stating that the day school counselors do a wonderful job of guiding students to evening school. He stated that there is no age limit for GBE students. He noted that only 5% of GBE students did not complete the program in the last six years. He stated that the students are using Chromebooks more and more.

Dr. Santa thanked the Board for their support.

**DISCUSSION/ACTION: STUDENT WELLNESS REPORT**

Dr. Williamson stated that this is a follow-up presentation that will highlight efforts being made to better address the previous gaps in the areas of:
(1) Homebound/Hospitalization Re-entry
(2) Clinical Supervision
(3) Data Warehousing
(4) Student/Parent Education/Communication

Dr. Lara Cummings stated that over the last three years there has been a large increase in homebound students. She stated that the administration looked at New Trier’s re-entry program. A similar pilot program within our Guided Studies classes will be implemented to see if this improves students’ transition back to school after being hospitalized or on homebound instruction.

Mr. Eric Etherton presented the clinical supervision model. He stated that the proposed new structure includes additional support in:
• Creating problem solving teams
• Consulting with outside providers
• Reaching out to the community agencies
Mr. Etherton reviewed the student/parent education communication plan.

Dr. Williamson stated that finding a data warehousing product continues to be a challenge.

Dr. Williamson stated that the pilot suggested for our current Guided Studies may result in a request for additional FTE.

Dr. Williamson responded to the Board that every teacher has taken an online tutorial course on suicide. Mr. Etherton provided more information regarding the training. He explained that the training is a state mandated online course. He stated that it is very informative for a teacher without experience on this topic.

**DISCUSSION/ACTION: CHROME BUSINESS MODEL**

Dr. Riggle stated that the administration has been discussing several Chromebook device options for the incoming class of 2018. He noted that no action is necessary this evening.

Dr. Riggle stated that the administration would like students to own existing Chromebooks at the end of the two-year lease. For incoming freshmen, there will be a four-year business model because the device is much more durable than the current model.

Dr. Ptak reviewed the pricing model for the Chromebook for incoming freshmen. The cost would be approximately $114 per year. She reviewed components of the pricing model and the possibility of self-insuring the devices.

In response to a board member’s question Mr. Bretag stated that because the device is still a Chromebook there was no need to pilot the device. The new device addresses the needs identified with the current Chromebook. He stated that the ergonomics made sense. The administration wanted to make sure that there was a value-add for the students. Mr. Bretag reviewed the replacement cycle for the different grades.

Dr. Riggle stated that pricing needs to be confirmed before this comes back to the Board for approval.

**DISCUSSION/ACTION: APPROVAL OF GBS BACKSTOP NETTING SYSTEM**

Dr. Riggle stated that the GBS backstop netting system was part of the capital outlay request from GBS and asked for Board approval.

There was Board consensus to provide the letter of support.
