DISCUSSION/ACTION: Board Policies

7100 High School Transcript Recognition for Courses

Dr. Riggle explained the policy update primarily streamlines the procedure of placing proper recognition on student transcripts and more clearly outlines the necessary standards. The policy was thoroughly reviewed by district administrators as well as the feeder elementary district administrators.

In response to a board member's question Dr. Riggle explained that math and world languages completed in middle/junior high school will not be used to satisfy high school graduation requirements.

7400 Homework

Dr. Riggle stated that this is the first official district policy for homework. The Homework Committee reviewed a variety of policies and best practices from school districts in the area as well as the PRESS policies provided by the Illinois Association of School Boards (IASB), which is used widely by school districts and throughout Illinois as the standard for board policy and development.

In response to board members' questions the administration stated:

- Homework principles will not be brought back for Board approval, but will be shared with the Board.
- The plan will be to get additional detail as the Homework Committee continues its work.
- The focus is on the high quality of homework and to make sure that we are doing meaningful work inside and outside the classroom.
- The importance of having principles be fluid.
- What the policy accomplishes.
- The homework initiative was put on hold because GBS moved to the block schedule and the one-to-one initiative had not reached all grade levels.

6/27/16

- Principles are anticipated to be in place for the 2017-2018 school year.
- Teachers want some discretion on their lessons, but do need a consistent framework.
- It is important to work with teachers to get buy-in.

Board members discussed:

- The need to have principles in place sooner rather than later.
- The importance of communicating homework principles once they are established.

Memorandum of Understanding -North Shore University Health System

Dr. Riggle stated that he provided the board with an email copy because we were not able to get it in time for the Board packet. He explained that a revision was made to state code that requires each high school to form a committee to develop concussion protocols and review concussion procedures at the school. The participation of a licensed physician on the committee is required. In an effort to meet this requirement our athletic directors, trainers, nurses and Mr. Swanson initiated meetings with the North Shore Physicians group and its members as volunteers working with our school personnel. The MOU has been reviewed and approved by SSCRP and our current liability insurance covers all participants as school volunteers. A separate MOU is necessary for each school since the committees must be school-based. The MOU document was reviewed and revised by the Policy Committee.

These policies will be placed on the July 25 consent agenda for approval.

MISCELLANEOUS TOPICS

In response to a board member's question regarding the informational item placed in the packet Dr. Gravel explained the process used for disposal of surplus technology equipment.

REVIEW AND SUMMARY OF BOARD MEETING

- Consent agenda items 6.2a and 6.2b will to be discussed in closed session.
- Policies will be moved to consent at the next Board meeting.
